January 27, 2014

Dear Sirs:

My son Andrew brought his car, (2007 Chrysler PT Cruiser), to your shop for body repair following a very troubling situation / mishap on I75 while returning to Tallahassee for school.

Both Dan and Scott treated Andrew with professional, courteous service, and went "above and beyond" to reach a conclusion and price that made us very comfortable.

I wanted to let you know how much I appreciate the way my son was treated by you two. It is very refreshing to know that when parents are hundreds of miles away, that there is an honest, upstanding firm such as yours that believes in doing the right thing and in treating people well. In a world of "get whatever you can get – and don't worry about anyone else", your customer service was stellar and it renews my faith that there are indeed good, fair and honest people that care about others.

So in closing, thank you very much for the wonderful treatment and customer service; and also thank you for a BEAUTIFUL repair job. The car looks perfect!!

Sincerely,

Mark Moskowitz
